”The Ultimate Software Solution for Texas County Clerks”

### Marriage License Module

### **NEW!** Birth – Death Module

This **FREE** vital statistics package is a state compliant system used to create both formal marriage license applications and informal declarations and an optional formal marriage license. Auto-indexing from the application is also a feature. After scanning, all vital records can be retrieved easily for certified copies. Licenses, applications, birth and death certificates are easily searched. This module also generates numerous reports for increased efficiency.
